PROTECTING LIVELIHOODS, ONE UMBRELLA AT A TIME

During the sacred month of Shravan, Tandhan Polyplast extended a humble gesture of care by distributing protective umbrellas to temporary shopkeepers and street vendors stationed near major Shiva temples across Kolkata and its suburbs.

These small but essential businesses often operate under open skies, exposed to the unpredictable monsoon rains — and this initiative was aimed at offering shelter, support, and dignity to those who serve thousands of devotees daily.

A Small Step with a Big Impact

For many of these vendors, an umbrella is more than just shade — it's protection for their livelihood, their goods, and their dignity during the holy month. By shielding them from sun and rain, we aim to honour their resilience and ensure their presence continues to add vibrancy and service to these sacred spaces.

QUOTE OF THE MONTH:- "I suppose leadership at one time meant muscles, but today it means getting along with people." —Mahatma Gandhi
